### KENYA UTALII COLLEGE, FEES POLICY

### 1. INTRODUCTION

Within the context of the government policy on cost sharing, Kenya Utalii College has developed this policy as a framework for the application of fees payable by Kenyan students to the College. This policy has, therefore, been developed taking in to account the impact of this revenue on effective operations of the College, bearing in mind, the College offers admission on strength of an implied promise from the Student and/ or is/her sponsor that the student will take up the admissions offer, and his/her fees will be paid for the full duration of the course.

The policy therefore provides the guidelines for the administration of the fees payable to the College by all students who have decided to take up the admission offer.

### 2. FEES STRUCTURE

Fees are determined by the overall operating expenses of the College, which are bound to change from time to time depending on the prevailing economic conditions. However, fees once set usually remain valid for a period of at least one year. Where economic conditions dictate, the College reserves the right to review its fees within a shorter period.

### 3. FEES DUE DATE

Payment of fees is a pre-requisite for admission. Therefore, a student can only be admitted on condition that the fees due are paid.

### 3.1 Schedules for Fees Payment

The schedule for payment for fees is drawn according to the categories of students, continuing students, international students and refresher course as well as seminar participants.

### 4. REFUNDS

For reasons contained in the introductory part of this policy, as a rule the College does not grant refunds to students whose courses are, for one reason or the other terminated prematurely. Hence, if a student's course is terminated for disciplinary reasons, poor performance or for other reasons not satisfactory to the College, no refund of the fees is granted. If however, the reasons for termination are satisfactory to the College (e.g. accident, health bereavement, and death) refunds will be granted as follows:-

### FOR JUSTIFIABLE CAUSES OTHER THAN DEATH

Period of student stay within the college prior to termination of course*	Portion of Refundable
Up to 30 days	50% of total fees
Up to 60 days	30% of total fees
Up to 90 days	20% of total fees
Over 90 days	Nil

### FOR TERMINATION ARISING FROM DEATH

Period of student stay within the college prior to termination of course	Portion refundable
Up to 60 days	50% of total fees
Up to 120 days	30% of total fees
Up to 180 days	20% of total fees
Over 180 days	Nil .

The period is the number of consecutive days from the beginning of a given academic year

Any extraordinary expenses incurred by the College on the student prior to his/her termination will offset against the relevant refund.

For a refund to be granted on grounds of accident, or health, the student must produce a report from the College appointed doctor, certifying that he or she is unfit to continue with the course. In the case of bereavement, refunds can only be granted if the student is forced to terminate his or her course because of the death of an intermediate member of the family, provided that the relevant documentary evidence is submitted to the College.
